Sr.Librarian & Information Officer,

Aravind Eye Care Sytem, Madurai.

This list is a compilation of recommended books for Ophthalmic libraries. The purpose of this list is to identify titles which should constitute a basic or opening day collection of both Clinical and Management books for Vision science Library, hospital, medical institute, corporate, or association setting. The items are suggested by Medical consultants, Faculty Members and Librarians. The Librarians use reserve lists, book reviews, expert opinions, Faculty recommendations, utilization statistics and other criteria for making their selections. Titles are suggested for inclusion in this list and the additions are reviewed by others. Final selections are decided upon by the committee of library. The opening day collection is updated periodically with the month and year of publication on the front cover.
